

Miernik Grandway FOH100 PON

1002273-FOH100

OPIS

GPON ONU activation process verification
OLT and ONU identification (PON ID and ONU SN extraction)
Automatic power level 1490nm/1310nm measurement and certification
In-service fiber plant qualification
ONU status identification(Online/ONU unregistered/Rogue ONU)
Fast identification and location of rogue ONU in PON network

DANE TECHNICZNE

| | |
|------------------------|---|
| Model | FOH-100 G/EPON Tester |
| Applicable PON network | GPON/EPON |
| Optical interface | SC/UPC *2 SC/APC *2 |
| Charging port | USB Type-C charging port |
| Wireless | Bluetooth (communication with Android smart phone) |
| Protocol analysis | OLT information: PON ID, Tx power |
| ONU status test | Online, ONU unregistered, Rouge ONU |
| Insertion loss | No insertion loss, the downstream 1490nm single will be enhanced when tester connected to the PON network |
| PON power meter | 1310nm:-30~+5dB; 1490nm:-30~+5dB |
| Power supply | 7500mAh lithium battery; Inpust 5V/2A |
| Working condition | -10°C~50°, 5%~95% (No condensation) |
| Size/Weight | 175x94x46.5mm(700g) |
